Balfour Beatty

Working in partnership

22nd April 2025

Dear Occupier

Malwood Avenue / Seymour Road – Carriageway Patching

Balfour Beatty is working in partnership with Southampton City Council to manage the highways service across Southampton. As part of this, we are due to carry out carriageway patching works on **Malwood Avenue and Seymour Road**.

These works are due to take place on **Tuesday 6th May 2025** for **1 day**, between **8:00am** and **4:00pm**.

During this time, Malwood Avenue and Seymour Road will have restrictions in two separate phases.

Malwood Avenue / Seymour Road – Tuesday 6 th May 2025			
Phases	Works	Restrictions in Place	Traffic Management
Phase 1	Carriageway Patching	Malwood Avenue will be closed from the junction of Seagarth Lane, to the junction of Lindford Crescent.	Road Closure
Phase 2	Carriageway Patching	Seymour Road will be closed from house numbers 15 to 18. There will be temporary traffic signals in operation during this time.	Road closure

Access will be maintained when and where it is safe to do so, and there will also be a signed diversion in place.

Prior to the start of the works, we may reserve the works area using 'no-waiting' cones; please do not park where you see these cones as we may need to remove vehicles which block access to our works.

Please be aware that the dates in this letter are subject to change, dependant on favourable weather conditions. In the event that works are delayed or ahead of schedule, we will alert you of any changes to the construction dates using yellow 'advance warning' signs in the area.

Refuse collections will be facilitated during this time. If you do experience changes to your access needs or are expecting any large deliveries, please speak to the team once they arrive on site and they will do their best to accommodate you. To minimise disruptions we don't intend to work during weekends; however should we experience any delays then it may be necessary to work on Saturdays.

Properties close to the works area may experience a temporary disturbance such as flashing lights and reversing sirens, as this can be a noisy process. We would like to take this opportunity to apologise for any inconvenience or disruption this work may cause.
